### ANOTHER NOTE.

Germany Seems to be Bargaining For Easier Peace Terms.

Dr. Self, the German Secretary for Foreign Affairs, has sent another message to President Wilson on the important question of peace. This time Germany professes to accept all the conditions for an armistice and eventual peace as laid down by President Wilson. The reply indicates Germany's willingness to evacuate occupied territory under an agreement to be reached by the military chief in the field. It is announced in the note that all submarine commanders have been ordered to cease attacks upon passenger vessels. Detail is made that lifeboats and passengers have ever purposely been destroyed or that any authorized atrocity have been committed by German troops. It is declared that Germany now has a parliamentary form of Government.

The reply of Germany to the President's ultimatum is the longest step toward peace that government has taken. In the somewhat involved official text, and through the fine phrases with which Dr. Self seeks to butter the black bread of defeat, the ultimate victory of the Allies can be seen.

It will be remembered that Germany first asked for an armistice, stating that she accepted the President's principles of peace as laid down in his four addresses on the subject. Our answer was that an armistice, if agreed upon, would be arranged by the military commanders in the field and would forego no point of present allied military supremacy or relinquish one safeguard. This meant, and still means, that German troops must stick their arms on the battlefield and be not permitted to retire to their bloody lairs, still belligerent, to menace the peace conference. To these conditions the modified text of the note would indicate Germany has agreed. If she has not, it will take Foch and Haig and Pershing but a few hours to find out, and there will then be no more such a shame of fire and ruin of steel upon the German armies as will achieve the same result by a route far more satisfactory to the mothers and fathers of soldiers.

## The City of The Sun

Part of the Old Inca Wall and the Temple of the Sun, Cuzco.

THE traveler who is able to endure high altitudes will look about the world today before finding a more picturesque or interesting historic spot than the region of the Peruvian Andes, the original home of the Incas. Cuzco, the City of the Sun, was their capital and the seat of the old dynasty that ruled an empire extending from Quito in Ecuador to the southern coast of Chile.

Here, on the west coast of South America, there existed a civilization in the early part of the sixteenth century when the Spanish conquerors arrived which was more advanced and productive of agricultural results, especially, than that which has been seen since under the rule of the Peruvians of Spanish stock, writes Clayton Sedgewick Cooper in Christian Herald.

Although these Inca remains are found throughout the Andean sections of Peru, the capital city of these races of men, who lived and worked and carried on an ordered civilization long before our far North American lands were discovered or settled, continues to be the great center of interest to those who find in these early ruling races of South America subjects of fascinating study. Every part of Cuzco is reminiscent of the past. It is one of the most antique and spectacular of cities. It is too remote to have been very thoroughly modernized as yet, though a railway recently built, and owned by an English company, connects it with the west coast at Mollendo, after a two days' train ride.

"Sorochee," or mountain sickness, is common to travelers visiting these lofty regions where one reaches over 14,000 feet above sea-level. Yet the proximity to the equator affords a climate capable of permitting many kinds of agriculture on the rolling plains and in the rich valleys of this mountain world. White men are comparatively few. Mixed breeds abound. The Indians do virtually all the work, and under conditions that resemble slavery much too closely.

Strange Scenes in the City. As one enters Cuzco through a wide green valley studded frequently with Indian villages, he finds this old and famous seat of power lying in a hollow of the hills, with green mountains all about and an air of remoteness and age afforded by the decaying buildings and great Inca walls and temples. It is at once evident that the city with its wide plazas was built for a much larger population than that which is found there today. The sanitary condition of the town reminds one of Seoul, Korea, before the Japanese arrived. The medieval air of ecclesiasticism is felt in the old churches, the cathedral, and in the monasteries filled with Spanish priests. The Indians whose famous capital here at Cuzco ruled the land, now sell their trinkets and vegetables in the market places under picturesque booths and clad in their even more picturesque ponchos and flat, round hats; or bend double beneath their heavy loads as they trot through the winding streets.

The Plaza des Armes of Cuzco is unforgettable. It is a sea of color, color everywhere. There are Indian men and women in variegated clothing from the distant Sierras, modern choles wearing hats made in Germany; a team of mules drags the antiquated Cuzco horse-car and long trains of lofty-necked llamas sweep by you each with his back-full of alpaca from the high interiors.

Shops and Their Keepers. We called it a four-ringed circus, and so it is; as you sit in this great flower-filled square, more than eleven thousand feet above sea-level, the semitropical sun shedding its warmth radiantly upon your head through the thin, transparent, cloudless air, you find yourself wondering which way to face lest something of the strange ever-unfolding scenes escape your gaze. One side of the square is lined by a row of little shops filled with 57 varieties of merchandise in which predominate gay-colored saddles and diverse accoutrements for the burros and pack animals, with profuse decorations of red and green and blue wool; before these shops sit Indian and cholo women holding in their hands spindle spoils which they manipulate dexterously during the intervals of trade, spinning the wool and weaving it into the poncho and caps and tall shirts of the native dress.

Above these quaint places of merchandise in the top of these two-story houses that spread out over the sidewalks are homes with elaborately carved balconies overhanging the street in old Spanish fashion, and with red tile roofs that glitter in the bright sunshine.

Cathedral and Fortress. On another side of the plaza stands the ancient cathedral, built as one is told of the famous Inca stone and containing the brother of Pizarro and that Spanish conqueror's partner, Almagro. On the doors of the chapel of Santiago, adjoining the cathedral, one can read the legend preserved in archaic sculpture of St. James coming down visibly on his white horse, standing with lance in rest, turning the tide of battle in favor of the Spaniards, thus noting the last throes of the famous Inca empire.

On still another side of the square, you can study the remarkable facade of the old Jesuit church and the ancient University of Cuzco founded in the sixteenth century, which buildings are said to be connected by an underground passage, associated with many an historic intrigue in the days that are dead.

These great piles of ancient masonry look straight away to the east where the great megalithic fortress of Saqsayhuaman, that cyclopean structure often called the ninth wonder of the world, tops the hill 600 feet above the city, and where one climbs to behold the rock remains which guarded the aboriginal Inca empire of Manco Capac. On the summit stands a cross bearing the inscription to the effect that he who climbs the hill kisses the crucifix and says a prayer at the foot of the cross, to him a hundred days of indulgence shall be granted.

Blind Man's Intuition. Sir Washington Ranger, the Salvation Army's blind solicitor, recently knighted, is a remarkable man. He is now in his seventy-first year and has been blind since he was fifteen. For over 50 years he has worked hard and voluntarily for all causes connected with the welfare of the blind, and is the only blind man to take the D. C. L. (Doctor of Civil Law) degree at Oxford. Sir Washington, who is a hearty co-operator with Sir Arthur Pearson in the magnificent work at St. Dunstan's, Regent's park, the "House of Hope," for blinded soldiers and sailors, recently said that when walking by himself he rarely loses his way. If, however, he finds himself doubtful of his whereabouts he walks straight on until he hears someone approaching. Then, with amazing intuition, he can tell whether the approaching stranger is to be trusted or not.

### GOOD WOMAN GONE.

Mrs. Raymond Williams Succumbs To Pneumonia Tuesday Night.

Mrs. Raymond Williams passed away at her home in West Hickman Tuesday evening. Pneumonia caused her death.

Mrs. Williams was 27 years old and was born and reared in this vicinity. Her exemplary life won for her many staunch friends and the love and esteem of all who knew her; and the pall of sorrow falls on many hearts—her loved ones—friends—those who knew and appreciated her true worth.

She was a daughter of John Storts and wife of the Brownsville neighborhood, by whom she is survived. She also leaves a husband and one sister—Mrs. J. Williams.

Deceased was a staunch member of the Baptist church. Rev. H. M. Tulin, of the First Baptist Church, conducted the funeral services yesterday afternoon at 4:00 o'clock, and the body was interred at Brownsville graveyard.

Mrs. Elmo Inman, of this city, was adjudged of unsound mind in Judge Stahr's court Monday and carried to Hopkinsville for treatment. Mrs. Inman suffered an attack of influenza which seems to have unbalanced her mind.

Clyde B. Whent and wife have a new daughter; the little Miss arriving at her home Oct. 20th.

Mrs. E. M. Provow, Sr., is visiting her sister at Marion, Ill.

### FREE COURIERS.

This Paper Will Be Sent to All Our Boys Overseas by a "Friend."

A wholesome, big-hearted citizen of Hickman has authorized the Courier to be sent to every Fulton county soldier boy, who is now overseas, at his expense. He says if there ever was a time when these boys would really appreciate the home news, it is now. This gentleman and friend of the soldiers asks us not to mention his name—but merely charge the subscriptions to his account. Neither is it a charity proposition; he simply wants to show his appreciation of the splendid services being rendered by our boys with these weekly reminders of the folks back home. He is doing by himself what huge organizations are doing in many other cities and towns—sending every boy a home paper. It is needless to add that his generous act will be appreciated by both the boys and their relatives.

NOW, in order to send the boys a paper, it will be necessary for relatives to supply us with CORRECT addresses of each boy—whether white or black; but he MUST be a Fulton county boy, and must have gone overseas. Kindly mail or bring the address to us at once, so that we may start the papers.

Lila Choate, son of Sabe Choate and wife, is still confined in his bed with typhoid fever, but is improving slowly.

Dr. Wm. Bright has been quite sick for several days.

## SPANISH INFLUENZA

### Resembles Old Fashioned Grip

The symptoms of Spanish Influenza are very similar to old fashioned grip—pains throughout the body, extreme dizziness, sleepiness, chills, high fever, headache, disturbed digestion with running at the nose and eyes and excessive spitting, showing an inflammation and congestion of the mucous linings.

### Manifested by Catarrhal Condition

With the first symptoms of Influenza, it is well to consult your family physician at once. It is not the disease itself that is to be feared so much as it is the complications which may follow. To ward off Spanish Influenza or as an aid to returning health after an attack, nothing is any better than Dr. Hartman's World Famous Peruna.

### For Catarrh of Every Description Take PE-RU-NA

The well known and direct action of Peruna in restoring and maintaining a healthy condition of the mucous membranes throughout the body makes it the greatest disease preventing and health restoring remedy known to science.

For forty-five years Peruna has retained its title as a reliable safe-guard to the health of the American family.

### Why Suffer?

Mrs. J. A. Cox, of Alderson, W. Va., writes: "My daughter... suffered terribly. She could not turn in bed... the doctors gave her up, and we brought her home to die. She had suffered so much at... time. Having heard of Cardui, we got it for her."

## CARDUI

## MRS. V. JEFFRES DIES.

Popular Lady of Crutchfield Is a Victim of Influenza and Pneumonia.

Mrs. Vester Jeffres, of Crutchfield, died Thursday of influenza-pneumonia, after a brief illness. The body was laid to rest at Poplar Grove Friday.

Deceased was a daughter of Mrs. John Roper, of near this city. She also leaves to mourn her loss a husband and four small children; and three sisters, Mrs. Roy Shaw, Mrs. Murphy Blumhardt and Mrs. Berry Threlkeld; and two brothers—J. M. and John Roper.

and possessed a large number of friends. Her death was most untimely; and a matter of profound regret.

## GILDEWELL SELLS FARM.

John Gildewell has sold his 145-acre farm near Brownsville, to T. A. Parnell, Jr., one of the leading young farmer-stockmen of the State Line section. The consideration, we understand, was about \$9,000. This is one of the best "hill" farms on the Lake and is better known as the oldquire Dickerson place.

A recess from October 20 to November 12 is planned by the leaders in Congress to enable members of both parties to go home for the election of the War Revenue and will not be presented until after the recess.

R. T. Hanna, lineman of the Cumberland Telephone and Telegraph Co., plant at Union City, died Monday morning, after an illness of ten days beginning with influenza and ending with pneumonia.

Next Sunday we go back to the old

From the Editor's desk, we get the following:

The message attending the death of Mrs. Kate Randle Luten, wife of Maj. Horace Luten, which arrived at New Concord, Pa., at 1:15 Friday morning, Oct. 18, came as a great shock to her many friends here. The illness which was very brief had not been generally known, influenza, following pneumonia being the cause of her untimely death. The body was brought back to Fulton for burial.

Mrs. Luten was the daughter of Mrs. Maggie Randle and the late Judge Randle, of Hickman, Ky. She is survived by her husband and two children, Randle and Margaret, and one brother, E. T. Randle, residing at Hickman.

Since her marriage Mrs. Luten had made her home in Fulton, until about a year ago she accompanied Maj. Luten, who was one of the first of our physicians to respond to his country's call, to his post of duty.

She was a devoted wife, a loving mother, a gracious friend, and one of Fulton's most prominent women in religious, social and club life. She was a valued member of the Methodist church and an active member of the Woman's Missionary Society, also she had been president of the Mt. Cross-land Chapter E. L. C. and vice-president of that State organization.

Her influence in the community will ever be felt, her memory will ever live in the hearts of those with whom she was associated and we feel that her passing will mean for her but "The dawn of ampler day."

## SMALLPOX MAY BE NEXT.

The possibility and even the probability of a worldwide epidemic of smallpox as a result of the war is discussed by Dr. H. Bruce Low, in a Blue Book, issued by the British Local Government Board. The pamphlet includes the following passages: "The last great epidemic which involved the whole of Europe developed at the time of the Franco-Prussian War in 1870, and there is a possibility that history may repeat itself, and that a very serious outbreak of smallpox, spreading again over the whole of Europe, may develop during or immediately after the present war. It is a moderate estimate that the epidemic of forty-seven years ago, carried off more than half a million of human lives in Europe."

It will be recalled that "flu" raged in Europe before our epidemic started; and it may reasonably be expected that an epidemic of smallpox on the other side would soon reach America.

On account of the epidemic of influenza the October term of Hickman Circuit Court was postponed. For the same reason the November term in Carlisle may be put off.

Margaret, the seven year old daughter of Guy Fulton, at Fulton, died Friday night of influenza.

Two more to come, please, that we are to have, "standing" and "driving" for \$2.57 50. It is the "United War Work Campaign." It is to have an organizing station in that of the 1st city local campaign and a standing and "driving" campaign to be held. As the cause of the drive would include F. W. W. C. in several organizations—seven in all—as follows:

Young Men's Christian Association, Young Women's Christian Association, National Catholic War Council, Jewish Welfare Board, War Camp Community Service, American Library Association, Salvation Army.

The funds raised will be apportioned among the organizations on a percentage basis by the government; so the subscriber will not have to worry about how much to give each one.

The campaign is scheduled to open Saturday, November 11, and close the following Sunday. Parades and other features will be a part of the program—provided the influenza epidemic permits.

County organization has already been perfected—with the exception of naming school district chairmen, 28 white and 10 colored—as follows:

Chairman—S. B. Stenbridge, Hickman.

Secretary—J. H. Russell, Hickman.

Treasurer—Rev. R. C. Douglass, Hickman.

Publicity—W. C. Speer, Hickman. Speakers—H. T. Smith, Fulton. Women's Dept.—Mrs. Redfern, Fulton.

Girl's Dept.—Miss Ruby Farmer, Fulton.

Boys' Dept.—Rev. E. L. Miley, Hickman.

Colored Dept.—Geo. T. Halliburton, Hickman.

Sub Chairmen:

Y. M. C. A.—H. L. Anders, Hickman.

Y. W. C. A.—Miss Virginia Luten, Hickman.

N. C. W. C.—John Pyle, Hickman.

J. W. B.—E. Dolson, Hickman.

W. C. C. S.—M. M. Gordon, Fulton.

A. L. A.—Mrs. Eli Byrum, Fulton.

A. S. A.—Not represented.

The field army of these seven great agencies comprise more than 15,000 uniformed workers on both sides of the water, and General Pershing is calling for additional workers to be sent at the rate of at least 1,000 per month, as their work is intended to reach each and every soldier and sailor in an effort to maintain a high morale of the Army and Navy, and to impress upon the boys that constitute same, that the folks at home are thinking of and praying for them.

Gov. Stanley, in a letter to Mrs. John G. South, president of the Kentucky Equal Rights Association, pledges his loyal support of the suffrage amendment when elected to the United States Senate.

### 3 OF FAMILY DIE.

E. F. Guthrie and Two Children Die, Came From Tennessee.

One of the most tragic pages in the local history of the influenza epidemic will be the recording of three deaths in the Guthrie family, in the Sylvan Shade neighborhood, with probabilities of two others not surviving.

Veda, age six, died the first of last week, influenza and meningitis caused her death.

E. F. Guthrie, the father, passed away last Thursday. Influenza and pneumonia was assigned as the cause of death.

John, age 12, was the next victim, his death occurring Sunday.

The bodies were interred at Mt. Zion cemetery.

In the family who resided on the W. J. Bonbrant farm, were ten members. All were down sick at the same time, none of them being able to wait on the others. Neighbors came to their aid and administered to the sufferers.

Cold chills running up and down your spine may prove ominous signals of approaching Colds, La Grippe, etc.  
For this reason you should combat the first symptoms of a fall cold.

### CAPS-A-COLD

relieves colds and similar complaints in an almost magical way. It is gently laxative and by loosening the bowels, stimulating the secretions and increasing the activity of the various vital organs it expels every vestige of Colds, La Grippe, etc.

Price 25 cents.

HELM & ELLISON

Among those who attended this fairly were Will Sewell, Phas. Alexander, Clyde and Jim McAdoo—and each of them contracted the disease, and were forced to their beds. The Guthries are newcomers in this section, and were former residents of Tennessee. Mr. Guthrie was a share cropper and of very limited means. The sickness, death and sorrow in this humble home whose breadwinner is gone and family ties broken—elicits and merits the sincere sympathy of the community. It is to be hoped the Grim Reaper will spare the remainder of the family—although some are dangerously ill.

### DIED MONDAY.

After Brief Illness of Pneumonia, Mrs. Myrtle Harmon Passes Away.

Pneumonia claimed another victim at 8:30 Monday evening, when Mrs. Myrtle, wife of J. C. Harmon, passed away. Her death was a terrible shock to her many friends, as she was ill only a short time.

Mrs. Harmon was a daughter of the late Newton Bushart, and formerly the wife of Albert Franklin. She was born Oct. 25, 1881, and was almost 37 years old. Practically all of these years were spent in this immediate vicinity. Besides her husband, she is survived by two children, a boy and girl; also a sister, Mrs. Lewis Easley.

Funeral and burial at the city cemetery.

In the passing of Mrs. Harmon, West Hickman loses one of its most highly respected ladies.

## OFFICE BOY WRITES.

There are 200,000 negroes in actual service, 120,000 of whom are now overseas. One full regiment is in the front line trenches, fighting side by side with French soldiers. These men are recognized as good fighting men and are doing their part as effectively as the white soldiers. Among them is one Julian Hale, for nine years a faithful employee of the Courier office, and we take the liberty to print below a portion of a letter recently addressed to us by him.

My Dear Sirs: Having no reason to offer for such a delay in writing, I beg to extend an apology for my tardiness. I often think of the Courier and the previous years of pleasure its staff afforded me as an employee. I can hardly realize that I have been in the National Army six months. It seemed that April was only a short while riding itself away during our stay at Camp Taylor. The first few days in May found us checking over the many articles the government had issued us, packing up batteries, supplies, company supplies, etc. In fact preparing for an unusual hike. One of the privates thinking that he had been given a "tip off" as to where we were going, started the rumor "in three days like is all." Some had an idea that we were going to some secret camp for training; we were even in the eastern hemisphere.

May fifth, we were given a special train and for two days we traveled through some of the largest cities and most beautiful and the richest country in the U. S. until we reached a port. A port of embarkation. What can it mean? Well we marched calmly to our stations in a huge vessel—a transport. Then it was when astonishment, surprise and amazement began to seize me with a great hold. A voyage. What do you know about that? It was a most pleasant one, full of amusement, instruction, interest and excitement. We enjoyed the movies, boxing, singing, dancing and a deal of music. Our ship afforded all modern conveniences.

The natural scenery was most gorgeous. If I were a Mcintosh, Wright or Dunder, I could not find the words to describe the grandeur of the sunrise or sunset in mid ocean. After a few days on the deep, blue "mirrors" Atlantic, the waves began to move more frantically about our ship. It was then that I began to feel rather light-headed. Some one suggested "you are sea sick." At the same time I saw Private Berry look beating it down the stairs. I am sure you can imagine feeling us with puffed jaws and big eyes making no tarrying in finding a place for relief. This is a common occurrence on the sea, but creates a deal of fun for the sailors. After eleven days and nights, our voyage came to an end, having landed on the sandy and seemingly rugged shores of France.

"Ancient structures and curiosities of various kinds are numerous. The French buildings are all stone, brick, or both, and many have stood for ages. The dwellings, stables and even the chicken houses are no doubt of the "Norman" style. We traveled many miles by rail. Our battalion was fortunate enough to get first class fare. Looking from the outside appearance of a French train, it resembles a queer, antique stage-coach, but our American passenger does not suffer more comfort. Rice and grapes are grown extensively. French nut stands and the rooms are plentiful; and for a few "francs" one can drink to his satisfaction. This takes the place of the old Kentucky product.

"For four months, we have been stationed in a large American camp in France. The part that we play in this great conflict is construction work—the S. O. S. Division. Day in and day out we have responded to the "fatigue call"; every day giving us more courage, inspiration and deeper interest in our work; and to say the least, our superior officers realize that something extraordinary has been accomplished. This alone would give us an insight to greater prospect in the future.

"The French are very courteous and congenial, they treat us with high respect. To know the language, is a great advantage in learning more about them.

"It would take a booklet to relate all our experiences, so I shall write you at another period."

## KNOW IT WELL.

Familiar Features Well Known to  
Hundreds of Hickman Citizens.

A familiar burden in many homes. The burden of a "bad back." A lame, a weak or an aching back often tells you of kidney ills. Dean's Kidney Pills are for weak kidneys.

Here is Hickman testimony. J. H. Brown, lumber merchant, Main St., says: "A number of years ago I strained my back and at different times since I have suffered with sharp pains across my kidneys. As I have known of Dean's Kidney Pills for years, I have always used them when my back bothered me and I surely can say a good word for this medicine in return for the benefit I have had."

Price like at all dealers. Don't simply ask for a kidney remedy—get Dean's Kidney Pills—the same that Mr. Brown had. Foster-Milburn Co. Mfgs., Buffalo, N. Y.

## TO THE TRAPERS.

There seems to be a misunderstanding about the law pertaining to trapping and hunting. Because the hunting license issued since the season begins October 1st, some seem to think they can trap them from that date. You may legally hunt them from Oct. 1st but only with dog or gun, or both. The trapping season begins November 16th and ends January 1st, and this law is going to be rigidly enforced.

## \$100 LIBERTY BOND WILL BE WORTH \$185 AT MATURITY DATE

And they Will Have Caused No Sleepless Nights at Any Time.

Few persons purchasing the present issue of Liberty Loan Bonds realize that if they continue to hold the bonds to maturity the total amount of un-compounded interest they will receive from every \$100 bond will be approximately only \$15 less than the original \$100 they paid for the bond.

This, however, is the case, as the bonds bear 4½ per cent interest and run to 1938, 20 years. Each year's interest is \$4.50, so that at the end of 20 years the total will be \$90 on every \$100 bond. Then when the time of maturity comes the owner gets back his full \$100, thus receiving \$185 for his original \$100 payment.

And during the years of the bond's life he has an investment which will never keep him awake nights worrying. He is as certain as it is possible to be certain of anything in human affairs that on interest dates the interest will be paid, and that in 1938 the United States Treasury will have money ready for paying the principal.

Further, during the period that the government is his debtor, the bondholder will enjoy the satisfaction of knowing he has done a patriotic duty, in addition to the concrete and tangible satisfaction derived from knowledge that he possesses the best investment into which money was ever put. At every and all times during the loan term the bond is as good as the day he bought it or will present it for redemption in the coin of the country.

## Fine for Heirs.

In what better form would it be possible to pass on wealth to children and grandchildren than in Liberty Bonds. It is impossible to conceive of a more safe and desirable legacy than one of government bonds. Provision has been made that any of the present issue of bonds which have been owned by any person continuously for six months prior to his death, and which constitute part of his estate, shall be receivable by the United States at par and accrued interest in payment of any estate or inheritance tax imposed by the United States under any law, present or future.

In framing the act authorizing the loan Congress endeavored to include every feature calculated to make the bonds popular with the great mass of people, and useful economically in years to come. On amounts under \$5,000 the bonds are free from taxation, so that the small holder is assured of getting every penny of his interest.

## Catarhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one cure for catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have running ears or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and the tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Medicine acts thru the blood on the mucous surface of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 3c.

## OBITUARY.

God in His infinite wisdom has seen fit to again visit our midst and claim one of our treasured members, Mrs. Nell Jeffers.

She was the third daughter of Mrs. J. E. Roper, near State Line, and a sweet and loving Christian woman, loved and highly esteemed by all who knew her.

She became a member of the Poplar Grove Baptist church early in life and was a faithful member until death.

Mrs. Jeffers became the wife of Vester Jeffers about twelve years ago and to their home were added four sweet, bright little children, who always knew mother as their best friend.

We cannot understand why mother was taken from the home, but God knows best, and we must be submissive to His will. He will ever be near to keep, guide and protect those little children.

She is survived by her aged mother, two brothers, J. M. and John Roper; three sisters, Mrs. Murphy Bonbrant, Mrs. Berry Threlkeld and Mrs. R. R. Shaw, her faithful and loving companion, and her four little heartbroken children.

Buried "round a narrow coffin, Stands a mourning funeral train; While for her gone thus so early, Tears are falling fast like rain. Hopes are crushed and hearts are bleeding.

Drear the fresh now and time; She, the best loved and the dearest, Far away to Heaven hath flown. Long, long will they miss you, Nellie, Long, long days for you they'll weep; And through many nights of sorrow, Memory will her vigil keep.

## COMMISSIONER'S SALE.

Hickman Circuit Court, Kentucky. David Johnson, Executor of the will of Mittle K. Salmon, dec'd, Plff., vs.

William Lewis Salmon, Milton Salmon, Agnes Crow and Perry Willard Crow, Defts.

IN EQUITY. By virtue of a Judgment and Order of Sale of the Hickman Circuit Court, rendered at the October Term thereof, 1918, in the above cause for the sum of all it will bring, with interest at the rate of 8 per cent per annum from the day of sale until paid, I shall proceed to offer for sale at the court house door in Hickman, Kentucky, to the highest bidder, at PUBLIC AUCTION, on Monday the 11th day of November 1918, at 1 o'clock p. m., or thereabouts (being County Court day), upon a credit of six months, the following described property, to-wit:

That certain tract of land lying in Fulton County, Kentucky, and being the north half of the North West quarter of Sec. 28, T. 2, R. 4 West, containing 80 acres, more or less, and being the same land devised to Wm. L. Salmon on the 28th day of January, 1905, by deed recorded in Deed Book No. 23, page 455, records of Fulton County, Kentucky.

For the purchase price the purchaser with approved security or securities, must execute Bond, bearing legal interest from the day of sale until paid, and having the force and effect of a Judgment. Bidders will be prepared to comply promptly with these terms. R. M. Evans, Master Commissioner, 10-24 Hickman Circuit Court.

## No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

### FLUE EPIDEMIC.

Doctors Estimate 200 Cases Here. 15 Deaths in This Vicinity. Probably Slight Improvement.

Hickman and vicinity is still in the grip of the Spanish influenza epidemic.

Local physicians, each estimating the number of patients they are treating, report around 200 cases in this vicinity under treatment. Local undertakers' records show there have been 15 deaths from this disease and its complications. As a whole there seems to be a slight improvement in the situation. Some have recovered and others have just taken it; so there are few if any, less cases now than this time last week. The disease here seems to be of less intensity than in many communities; the percentage of pneumonia falling far short of that in some localities.

The Board of Health's quarantine is still in effect, with no prospect of its immediate lifting. Schools, picture shows, religious assemblages, public gatherings, etc., are still under the ban. The disease seems to have covered the county in a pretty thorough manner. The town of Fulton seems to have suffered worse than any other section of the county, and the authorities have been forced to send out distress calls, asking for volunteers to help nurse and wait upon many families, in which every member was ill.

The Cantler has been unable to compile a complete list of the sick, but in our rounds we note the following families have two or more cases, as indicated by the figure following the name: W. J. Spreddin 2, J. C. Ellison 2, W. Adams 5, Mr. Thornton 4, Cecil Caldwell 3, R. Van Noy 3, John Conn 2, Elmo Imman 4, J. L. Dotson 3, Risty Jackson 3, W. M. Pugh 11, Coop Bradshaw 4, Ben Covey 3, Mrs. Lester Smith 4, Henry Everette 3, Mat Dockins 2, Ed Ellis 4, W. R. Parker 12, Geo. Terrett 5, Chas. Isbell 3, Jess Cleaves 6, and many others which have not been reported.

It is needless to add that our limited number of physicians are kept busy night and day; but they are doing a heroic work and giving the best there is in them to alleviate suffering. Druggists also deserve special mention for handling an unusually large number of prescriptions by continually sticking at it.

About the only advice that can be given is to continue the rules of prevention, as given in last week's Courier. Avoid crowds as much as possible.

Neighboring towns that have been especially hard hit by the epidemic are Fulton, Mayfield, Union City, Newbern, Charleston and Dyersburg. Memphis and Louisville have both reported a great number of deaths.

### ALVA PUGH DEAD.

Another Flue Victim West of Town. Burial at Troy, Tenn.

Alva Pugh, age 25, a share-cropper on Geo. Terrett's place, 12 miles below Hickman, died Monday from the effects of Spanish influenza. The remains were taken to his former home at Troy, Tenn., for burial, Tuesday. A prayer service was held at the home.

Mr. Pugh leaves a young wife and two small children to mourn his loss. The family had not been in this section long, but he was favorably known among his friends and neighbors. Mr. Pugh's life work was farming.

### FALL SUIT CUT ON MOVED LINES

Here is a fall suit, cut on original, but conservative lines that will not fall to please the most exacting taste. It has a plain, practical shirt—short top length, and a coat with beautiful lines. A seam in the body, cutting its length under arm, and small top pockets are new features. It has a large overcollar of Hudson seal which may be turned up to muffle the throat or taken off, if need be.

### REV. HOUSLEY DEAD.

Former Citizen-Pastor of This City Dies at Martin of Pneumonia.

This community was shocked when a message came stating that Rev. Jas. B. Housley, formerly of this city, died at Martin, Tenn., last night at 10:00 o'clock, following a ten days' illness of pneumonia.

Hickman never had a finer citizen than Jim Housley. He lived here about 15 years and was employed as N. C. & St. L. engineer. In the meantime he prepared himself for the ministry and after being ordained was called as pastor of the West Hickman Baptist church. He was an able, sincere, earnest worker and loved, not only by his congregation, but by all who knew him. When the railroad changed up its schedules a year or so ago, he was transferred to Martin, to which place he and his family moved. But he still served as pastor of the Hickman church.

Rev. Housley was about 40 years old. He is survived by his wife and two children, Miss Inez, and little son, J. B., Jr. The remains will be taken to Nashville for burial, which will take place tomorrow.

The relatives and friends have our sympathy. Rev. Housley was a fine man and will be greatly missed.

### Statue Vines.

Chinese gardeners sometimes plant statuettes of tiny men firmly in pots, just like real plants, and then train live evergreens to grow up over these statuettes. The vines thus form a kind of robe for the statuette men, their white faces and hands protruding from the green leaves.

### WINS BRIDGE CASE.

In the case of the Vincennes Bridge Co. vs. C. L. Walker, the Appellate Court rendered a decision Tuesday in favor of Mr. Walker.

This case involves the steel foot bridge spanning the ravine near J. W. Rogers' residence. Mr. Walker contended the bridge company failed to erect the bridge according to specifications and refused to pay them. The company brought suit in Fulton Circuit Court to make collection. The decision of the higher court releases Mr. Walker from paying for the bridge, inasmuch as it is not up to specifications. Judge W. B. Amberg was one of the attorneys for Mr. Walker.

## THE LAND OF OPPORTUNITY

This body of land is located six miles west of Hickman, on the C., M. & G., four railroad stations in easy access of the place. None of this land is further from a shipping point than 1 1-2 miles. Land fully protected by good government levee and has perfect natural drainage into Reelfoot Lake. A reference to the map above will show the different size farms, location, roads, etc. Three tracts of this land were sold (see map) three years ago, and this land now cannot be bought for \$125 per acre.

The land of staple cotton, corn, oats, wheat, clover and alfalfa. The land of prosperous and contented farmers, a soil as rich as the valley of the Nile, where all crops of the Temperate Zone are grown in great abundance.

The division of this land to be sold at public auction presents a ONCE-IN-A-LIFETIME OPPORTUNITY TO THE HOME SEEKER AND INVESTOR. A hint to the wise is sufficient. Get busy. Investigate. The Mississippi Delta's climatic conditions, and long grazing seasons, are ideal for the live stock industry, along with general farming.

Prospective buyers will be shown land, free of charge, any time prior to sale day from Hickman or Bondurant.

For further information call or write B. G. Hale Sr., Hickman, Ky.

This land represents much merit of location and productiveness. They will sell without reserve. Title good.

**TERMS:** One-fifth cash or its equivalent; balance in four equal annual payments at 6 per cent interest. Will take part or all of first payment in Liberty Bonds at par value.

its. It's a large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Doan's Liver Tonic is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no listlessness, sick headaches, cold stomachs or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent cathartics. Take a dose of cathartics today and tomorrow you will feel weak, sick and unrefreshed. Don't lose a day's work! Take Doan's Liver Tonic instead and feel fine, full of vigor and ambition.

### STRANGER DIES HERE.

Frank Woodard, age 26 years, who has been working for the Mangel Box Co. a short time, died yesterday at the home of Mrs. Jennie Witham, with whom he boarded. No physician was in attendance but it is supposed that he was the cause of death. His remains were interred at the city cemetery at the county's expense.

About the only source of information regarding the man was a W. J. Swain employment card found in his pocket. This gave his home address as Evansville, Ind., age 26.

### NEW B. & L. SECRETARY.

J. H. Russell has resigned as secretary of the Hickman Building & Loan Association to engage in other work, and City Attorney S. D. Stenbridge was elected by the board of directors to fill this position. Mr. Russell has filled this place for some time and in a very satisfactory manner, and Mr. Stenbridge will doubtless be equally efficient.

### MORE QUESTIONAIRES.

The Local Board of Fulton county will begin mailing out Monday questionnaires to the "older boys," that is those who are above 17 years old—and ten per cent will be mailed each day. The 18-year-olds will also receive questionnaires. They will be mailed at the rate of about 100 a day.

### BOY DIES ON NO. 8.

James A. Parker, the twelve-month-old son of Frank Parker, residing on No. 8 Island, west of Hickman, died Wednesday. He was a victim of the flu.

About 200 Fulton county soldier boys, who are away from home, have been supplied with ballots so they may have a voice in the November election.

## VINOL CREATES STRENGTH

### Positive—Convincing Proof

It is all very well to make claims, but can they be proven? We publish the formula of Vinol to prove the statements we make about it.

It contains Cod Liver and Beef Peptones, Iron and Manganese Peptones, Iron and Manganese Citrate, Lime and Soda Glycophosphate, Casein.

Any doctor will tell you that the ingredients of Vinol as published above, combine the very elements needed to make strength.

All weak, run-down, overworked nervous men and women may prove this at our expense.

There is nothing like Vinol to restore strength and vitality to feeble old people, delicate children and all persons who need more strength.

Try it. If you are not entirely satisfied, we will return your money without question; that proves our fairness and your protection.

Helm & Milson, Druggists.

### BEAD-TRIMMED SLIP-OVER BLOUSE

The slip-over blouse and the blouse extending below the waistline have the merit of beauty and the attraction of novelty to commend them. Here is a lovely blouse for fall that combines these new features in a compelling model of georgette with garniture of beads. The front is extended into a little apron and ends in a flat tassel of beads.

### FAIR WARNING.

It may not be generally known, but it is a fact that the Federal law now prohibits the sale of migratory birds throughout the United States. It is unlawful to sell ducks, geese, turkeys, jacksnipe or other migratory game birds either in the open season or at any other time, and the penalty is a \$500 fine and six months in jail. It is just as much a violation to offer such birds for sale as to complete the transaction. The buyer and seller are both liable. It is also against the law to shoot from a motor boat.

This is published on the authority of S. W. Linsborough, United States game warden, who wishes everybody to have fair warning and thus keep out of trouble.

### ENDORSES STANLEY.

Judge F. S. Moore has received the following telegram from Hon. A. W. Barkley:

"Your letter received yesterday. Pres. Wilson sent the following telegram to Rev. E. L. Milley First Christian Church, Hickman, Ky.: 'I earnestly desire the election of Gov. Stanley to the United States Senate. I suppose that my wholehearted support of him was well known throughout Kentucky—Woodrow Wilson.' In view of this message and the President's well known desire for a congress that will support his administration both during the war and when peace comes, any republican claims to the contrary are preposterous." (Political adv.)

### NEW SUGAR RULE.

Issue no more sugar certificates for canning and preserving purposes. Washington directs that no more be issued; sugar too scarce. Have all retailers send in at once such as they have filed. The sugar situation is indeed critical and we must observe the two pounds per person per month rule scrupulously and rigidly.

The two pounds per month rule has not changed, but you can only buy sugar twice a month. Don't ask your merchants to violate these rules. S. D. STENBRIDGE, Deputy Food Administrator, Fulton County.

## The HOME BEAUTIFUL

Flowers and Shrubs  
Their Care and Cultivation

A Hedge of Perennial Sweet Peas Which Hides the Barnyard From the Home Grounds.

### GARDEN NOTES WORTH SAVING

By JOSEPHINE DE MARR.

If your sweet peas begin to deteriorate, watch closely to see that no seeds mature; that the soil is stirred and a good mulch applied; that they get a good soaking at the roots once or twice a week during dry weather.

In a shady part of the garden prepare a bed of light, rich, sandy soil, and put a frame about it. Cover it with a glass frame heavily whitewashed. Water and firm the soil and then plant cuttings in it. Cuttings of geraniums, roses, etc., may vary from an inch to eight, but in all cases remove two-thirds of the leafage and bury the cutting, allowing one or two eyes above the soil.

If you want to grow geraniums, snip out the tips of the branches and train the plant to throw out shoots near

suffer. Turn the calla lily pot on its side in a shady place and give it a good rest.

While most people preach the desirability of young plants for winter blooming, you will find that the geraniums and kindred plants will give more bloom and be more satisfactory as winter bloomers in their second year than in their first, if properly raised.

Cut the year-old plants back severely, pinch out all the shoots before they get three inches long; repot and shift as necessary, but do not stimulate with liquid manure.

A neighbor has a hedge of perennial sweet peas screening the barn yard from the house yard, and it is most satisfactory. Although its flowers are not as light and graceful as the annual sweet pea, they have a charm all their own, and through heat and cold, frost and drought, need little care or coaxing to do their best.

If you want to cover a fence or trellis with a quick growth of vines, get stems of the Virginia creeper, about six to eight inches deep. At every joint will grow a shoot. Give a good soil and top-dressing of well-rotted manure in the spring and fall. This vine is hardy as the oak and almost immune from the attack of insects and pests.

The gladioli may be planted up to July 20 and, if given good soil, water and liquid manure, they will bloom before frost.

### OLD FASHIONED FLOWERS

The good old-fashioned flowers prove the adage "the survival of the fittest." They are beautiful and easy to grow, which recommends them to busy house mothers.

Gloxinias and tuberous begonias are excellent summer bloomers. Procure the tubers in April or May. Spread them out on pieces of old carpet, made and kept quite warm and damp, to sprout. If this is not done before they are put into pots, some of them, especially the begonias, may get planted wrong side up.

When sprouts appear pot the tubers in a light, spongy soil, one to each six inch pot. The begonias will need to be given support, as their stalks lack strength to stand up sturdily when left to themselves. These come in a wide range of rich and beautiful colors. Some are single, some are double the latter are preferable.

The gloxinia comes in white, crimson and purple. Some varieties are bordered with a contrasting color, others have a throat of light or dark color, while still others have spots of dark color on a light or white ground.
